MANAGEMENT

Gerasimov K.B., Shkodina E.S.

STRUCTURE OF THE PROCESS OF MANAGEMENT PROFESSIONALIZATION

The paper considers the main components of the process of managerial professionalization and identifies the main features of managerial professionalism. It is proved that the lack of a clear algorithm distinguishes an ordinary employee from a professional manager. It is determined that qualitatively new situations, which can lead to fatal, irreparable consequences, have the highest level of complexity. The role of professionalization of managers in the development and competitiveness of the organization is emphasized.

Keywords: process, professionalism of managers, organization, competence, activity.
